

## Coordinated Campaign Gaining Momentum in Benton County

Jim Prebil, from Bentonville, is working on the Arkansas Coordinated Campaign, an activity of the Democratic Party of Arkansas. He will set up a Benton County office for the fall election season. Prebil was first introduced at the Benton County Democrats' meeting July 26, where the phone bank project was promoted. Here is his recent (Aug. 4) progress report to Sharon Carter.

. . I thought I would send you an update on actions in Washington County leading up to our Benton County office opening. Last Sunday we on the coordinated campaign started to move away from volunteer base-building (although volunteers are still the MOST important thing to us) towards identifying where the persuadable voters are that can be moved towards the left. I need you to convey to the Benton County Democrats (via email, website) that we are picking up the pace on the campaign a little earlier than we would traditionally.

Now, more than ever, if BCDems can find an hour or two a week in their volunteer efforts during August, they can greatly affect what happens in November. We are still having our weekly Benton County phone bank on Thursdays from 4-8 at my house. I would love it if you all spread the word to let every one know it is still going on.

The phone bank location is at my home, 1001 Provence Place, Bentonville. That's west off of Walton Blvd just before heading into Bella Vista. Call Jim at 501-410-6525 for directions, or email [jprebil@arvictory.org](mailto:jprebil@arvictory.org).

Some exciting news: the search for the Benton County office has picked up immensely. With the Sebastian County office open, full effort from the campaign is going towards finding a spot for the coordinated campaign to call home. We are looking for an office with ample space for a large group of volunteers and plenty of phone lines to get people excited about these Democrats! I will be sure to keep you up to the minute informed on how that search is going. If you have any leads on some good spots feel free to let me know.

I want to thank you once more for the kind welcome from the entire club. It is truly an honor to be working in my home county for the Democratic Party. I know we stand to make some incredible progress this year, but it is not possible unless we all work hard and work together, which I know we will.
